# Our most customisable drinking fountain.

Mount Cardrona Product Information

---

**The Mount Cardrona is a wall-mounted drinking fountain, perfect for both indoor and outdoor use. The Mount Cardrona drinking fountain has many iterations and add-ons meaning there will be a model perfect for your specific requirements. It's a popular choice among schools and kindergartens where multiple-uses and cost are important decision factors.**

- Constructed using durable stainless steel
- Rear mounting brackets for simple installation and maintenance plate
- Water filter fitted as standard
- Fully drained making it a great indoor solution
- Connects to standard 40mm drainage
- Inlet water connection is female ½ inch
- Working pressure of 30-125 psi | 207-862 kPa
- Includes pressure reducing valve
- Qualifies for our replacement refurbishing program

**Optional sensor activation can be added to this drinking fountain.**

**Sensor Specifications:**

- Activated when theres any movement within 10cm
- Water shuts off as soon as motion is not detected (someone moves away)
- 3 year warranty on the electronic sensor control system, besides batteries or damage caused to the system outside normal use
- Battery operated using 4x AA batteries
- 2 year approximate battery life based on 100-200 operations per day
- Reliable, trade tested
