

**Slimline design,
providing purified
water in a range of
indoor areas.**

Mount Karangahake Product Information

The Mount Karangahake fountain is our most slimline model yet. The design allows indoor installations with limited wall depth and different heights to suit your users. The fountain utilises touchless-technology and allows users to fill their drinking bottles safely.

- Constructed using 18 guage, type 300 series stainless steel and ABS plastic
- Sensor-activated bottle filler with automatic 20 second shut-off timer
- User interface design makes touchless operation intuitive
- Quick fill rate of 1.5 gallons per minute
- Touch-free sensor operation
- Integrated silver ion, anti-microbial protection in key areas, preventing mould and mildew
- Laminar flow provides minimal splash
- Real drain system eliminates standing water
- No bubbler required
- Indoor use only
- Water filter fitted as standard

Options: Remote chiller can be installed within 1.5 metres of drinking fountain to deliver chilled water.

Dimensions:
Height 647mm, Width 455mm, Depth 208mm

Code:
Mount Karangahake

Please note: Does not include the mounting bolts or protect caps due to various surface situations i.e. concrete, wood, steel - these are to be provided by the installer. Pressure reducers and back flow preventers are to be added by the installer at their discretion.
