

**Variable heights to
suit different ages
and environments.**

Mount Maunganui Product Information

This freestanding fountain is a popular choice as it offers varied heights, catering to different age groups. This particular fountain is also extremely durable as it is constructed using stainless steel and has the option to include vandal-resistant shrouds.

- Variable heights available to suit any age, ability or environment
- Easy installation including full length inspection/service panel
- Stainless steel construction with 4mm wall thickness for longevity
- Shrouds over tapware for increased vandal/environmental protection
- Drinking bubbler, bottle filler and hose maintenance tap
- Water filter fitted as standard
- Inlet water connection is female ½ inch
- Working pressure of 30-125 psi | 207-862 kPa
- Qualifies for our replacement refurbishing program

Optional sensor activation can be added to this drinking fountain.

Sensor Specifications:

- Activated when there's any movement within 10cm
- Water shuts off as soon as motion is not detected (someone moves away)
- 3 year warranty on the electronic sensor control system, besides batteries or damage caused to the system outside normal use
- Battery operated using 4x AA batteries
- 2 year approximate battery life based on 100-200 operations per day
- Reliable, trade tested

Dimensions:

Height 900mm, 150mm square

Variable heights available

Codes:

Mount Maunganui - F6H-SD (plate-mounted with shrouds)

Mount Maunganui - F6H-SD-700

Option to add dog bowl to any fountain

Please note: Does not include the mounting bolts or protect caps due to various surface situations i.e. concrete, wood, steel - these are to be provided by the installer. Pressure reducers and back flow preventers are to be added by the installer at their discretion.
