# Highly durable fountain ideal for coastal areas.

Mount Taranaki Product Information

**This freestanding fountain is constructed using 304 stainless steel meaning it is highly durable and ideal for coastal areas. The fountain is also internally drained for minimal overflow and mess. There are a number of different add-ons available to customise this for your specific requirements.**

- Constructed using 304 stainless steel
- Drinking bubbler as standard with option to include bottle filler and maintenance tap
- Water filter fitted as standard
- 3mm wall thickness and 32mm waste outlet
- Water supply connects to a 1/2" female thread
- Working pressure of 30-125 psi | 207-862 kPa
- Qualifies for our replacement refurbishing program

**Optional extras:**

- Bottle Filler
- Maintenance tap
- Vandal resistant shrouds

**Dimensions:**

**Height 900mm, diameter 300mm**

**Code:**

**Mount Taranaki - F6P-SD**

*Please note: Does not include the mounting bolts or protect caps due to various surface situations i.e. concrete, wood, steel - these are to be provided by the installer. Pressure reducers and back flow preventers are to be added by the installer at their discretion.*
